

The Country Cabin

2

Cosy Country Living

1

The Country cabin is a fully self contained cabin, perfect for singles, couples, children or retirees.

The compact and self contained cabin meets shire requirements for ancillary accommodation, utilising approximately 60 square metres.

**External
kit from:**
\$38,314

**Internal
kit from:**
\$25,586

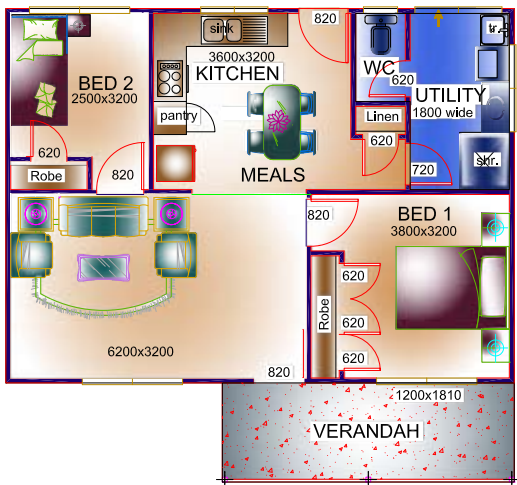

Kit Homes are ideal for urban or rural areas offering attractive design, coupled with functional architecture. A Kit Home can be designed and erected in a matter of weeks with modern features and additions such as home gyms, theatre rooms, spas and gourmet kitchens.

Kit homes are created with owner building in mind and offer an affordable housing solution to suit you and your family. Kit homes offer pre-fabricated components typically ideal for residential housing, which are more cost effective, as well as quicker to build.
